Assigned readings on Carmen

Course Description:

The title “Women of Color and Social Activism” has very broad connotations; and in an effort to be as true to the intent of the course and to create an experience which results in concrete analysis of the strategies and approaches women of color utilize to empower themselves and others, we are going to focus primarily on the United States. We will primarily investigate the social, cultural, and political approaches of African American women with an eye toward comparing them with Chicana, and Native American women’s movements. This course will also focus on the role religion, race and class have played on both which women tend to be activists and whom they have historically represented. It will examine women’s activism in relationship to abolition, gender rights, religion, civil rights, and international feminist/womanist movements. Finally, the course is organized such that the class members will have very active individual and group input.

GEC Goal: Social diversity in the US

We will accomplish this goal by examining the basis for women of color identities in relationship to communities, social institutions, and political structures. How these relationships are constructed, tested and altered will help us to understand the commonalities that exist within the organized struggle of all women.

Course Objectives:

1. To gain better understanding of the ways women chose to confront their oppression

2. To acquire appreciation of the social and political impact of women’s activism on society at large

3. To understand the influence of gender on the mechanisms of social activism

4. To practice and improve critical thinking
**Course Requirements:**

1. Group research project & presentation – 100pts
2. 5 individual critical responses (to assigned articles & placed in drop box) 50pts
3. 5 critical questions in response to readings &/or research (placed in drop box) 50pts
4. Class attendance & active participation (unannounced quizzes) 50pts
5. Final take home exam – 100 pts

**Academic Misconduct:**
All students are responsible for doing their own work and plagiarism will NOT be tolerated. As defined by University Rule 3335-31-02, plagiarism is “the representation of another’s works or ideas as one’s own; it includes the unacknowledged word for word use and/or paraphrasing of another person’s work, and/or the inappropriate unacknowledged use of another person’s ideas.” Plagiarism is one of the most serious offenses that can be committed in an academic community; as such, it is the obligation of this department and its instructors to report all cases of suspected plagiarism to the Committee on Academic Misconduct. After the report is filed, a hearing takes place and if the student is found guilty, the possible punishment ranges from failing the class to suspension or expulsion from the university. Although the existence of the Internet makes it relatively easy to plagiarize, it also makes it even easier for instructors to find evidence of plagiarism. It is obvious to most teachers when a student turns in work that is not his or her own and plagiarism search engines make documenting the offense very simple. Make sure to:
Always cite your sources (I can help with this) and ask questions before you turn in an assignment if you are uncertain about what constitutes plagiarism
To preserve the integrity of OSU as an institution of higher learning, to maintain your own integrity, and to avoid jeopardizing your future, **do not plagiarize!**

**Disability Statement:**
Students who wish to have an accommodation for disability are responsible for contacting the professor and TA as soon as possible. The Office for Disability Services (150 Pomerene Hall; 292-3307; 292-0901 TDD) verifies the need for accommodations and assists in the development of accommodation strategies.
